

MSDS

Mn:ZnSe Nanocrystals in Water

1. PRODUCT IDENTIFICATION

CAS No.: 1315-09-9 (ZnSe), 1313-22-0 (MnSe)

Inorganic Unit (Mn:ZnSe): 144.369 g/mol (ZnSe), 133.898 g/mol (MnSe)

Chemical Name: Zinc/Manganese Selenide (Doped Nanocrystals/D-Dots)

Chemical Formula: Mn:ZnSe

Chemical Family: II-VI Compounds, Doped Semiconductor Compounds

Typical Solvents (CAS No): Toluene (108-88-3), Hexanes (110-54-3), Chloroform (67-66-3), Dichloromethane (75-09-2), Methanol (67-56-1), Water

2. COMPOSITION/INFORMATION ON INGREDIENT (EACH VIAL)

<u>Substance Name</u>	<u>CAS #</u>	<u>Percentage of Whole (by weight)</u>
ZnSe	1315-09-9	2.0%
MnSe	1313-22-0	1.0%
Water		94%
Mercaptopropionic Acid	107-96-0	1.0%
Ammonium Hydroxide	1336-21-6	1.0%
Sodium Bicarbonate	144-55-8	1.0%

3. HAZARDS IDENTIFICATION

Irritating to eyes, respiratory system, and skin.

HMIS ratings (scale 0-4) (Nanocrystals only, does not include solvent)

Health = 2

Flammability = 1

Reactivity = 1

4. FIRST AID MEASURES

General Information: Immediately remove clothing contaminated by the product. Remove any breathing apparatus only after contaminated clothing has been completely removed. In case of irregular breathing or respiratory arrest provide artificial respiration.

Inhalation : Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.

Skin contact: Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.

Eye contact : Rinse opened eye for several minutes under running water. Then consult a doctor.

NN-Labs, LLC

Nanomaterials & Nanofabrication Laboratories

Ingestion: Do not induce vomiting; immediately call for medical help. Seek immediate medical advice

5. FIRE FIGHTING MEASURES

Suitable extinguishing agents: Product is not flammable.

Special Hazards: In case of fire, possible toxic metal fumes may be emitted.

Protective equipment: Wear self-contained respirator if necessary. Wear protective gloves.

6. ACCIDENTAL RELEASE MEASURES

Person-related safety precautions: Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation

Measures for environmental protection: Do not allow material to be released to the environment without proper governmental permits.

Measures for cleaning/collecting: Dispose contaminated material as waste according to item 13. Ensure adequate ventilation.

7. HANDLING AND STORAGE

Information for safe handling: Keep container tightly sealed. Store at room temperature or in refrigerator (4-10°C) under dark conditions within a tightly sealed container. Ensure good ventilation at the workplace. Store dissolved in solvent to prevent the formation of dust.

Information about protection against explosions and fires: Know the requirements of the necessary solvent. Product itself is not flammable

Requirements to be met by storerooms and receptacles: No special requirements.

Information about storage in one common storage facility: Do not store together with acids.

Further information about storage conditions: Keep container tightly sealed. Store at room temperature or in refrigerator (4-10°C) under dark conditions within a tightly sealed container. Ensure good ventilation at the workplace. Store dissolved in solvent to prevent the formation of dust.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

General protective and hygienic measures: The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages, and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.

Breathing equipment: Use suitable respirator when high concentrations are present.

Protection of hands: Impervious gloves, check gloves using UV light after use to determine level of contamination.

NN-Labs, LLC

Tel: 479.575.2723; Fax: 479.575.4049

www.NN-Labs.com; E-mail: contact@NN-Labs.com

Eye protection: Safety glasses

Body protection: Protective work clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES:

Form: Liquid form. Crystalline powder, dissolved in a solvent

Color: Clear when dilute, Yellowish Clear when concentrated, White/Yellow in powder form.

Odor: Odor dependent upon solvent used. Crystalline powder is odorless

Melting point/Melting range: ~1100°C to bulk melting point of Mn:ZnSe crystals. The solvent is liquid and depends on the chemical composition of the solvent.

Boiling point/Boiling range: Determined by solvent used

Sublimation temperature / start: Not determined

Flash point: Dependent upon solvent used

Ignition temperature: Dependent upon solvent used

Decomposition temperature: Not determined

Danger of explosion: Dependent upon solvent used. Crystalline powder does not present an explosion hazard.

Explosion limits: Currently unknown for nanocrystals

Vapor pressure: Dependent upon solvent used

Density: 5.42 g/cm³ (crystal at 20 °C) for the nanocrystal powder if isolated

Solubility in / Miscibility with Polar Solvents: Soluble when hydrophilic ligands are present

Solubility in / Miscibility with Non-Polar Solvents: Soluble when hydrophobic ligands are present

10. STABILITY AND REACTIVITY

Thermal decomposition / conditions to be avoided: Not determined, but temperature increases will affect the solvent used. Be aware of the necessary warnings for the specific solvent used.

Materials to be avoided: Acids, Bases, Oxidants, Reductants, and Ligands to the nanocrystals should be used with caution.

Dangerous reactions: No dangerous reactions known for nanocrystals but look up specifics for the solvent

11. TOXICOLOGICAL INFORMATION (For Mn:ZnSe Only)

Acute Toxicity: Selenium may cause amyotrophic lateral sclerosis, bronchial irritation, gastrointestinal distress, vasopharyngeal irritation, garlic odor on breath and sweat, metallic taste, pallor, irritability, excessive fatigue, loss of fingernails and hair, pulmonary edema, anemia and weight loss.

Zinc and Manganese fumes may cause metal fume fever. Effects include dry throat, metallic taste, chest pain, dyspnea, rales and dry cough. Several hours later, chills may occur with lassitude, malaise, fatigue, headache, back pain, muscle cramps, blurred vision, nausea, fever, perspiration, vomiting and leukocytosis.

NN-Labs, LLC

Nanomaterials & Nanofabrication Laboratories

Skin: Irritant to skin and mucous membranes.

Eye: Irritating effect.

Sensitization: No sensitizing effects known.

Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA, or ACGIH.

WARNING: Many of the toxic effects of Mn:ZnSe nanocrystals are still being researched and are currently unknown at this point. Use at own risk.

12. ECOLOGICAL INFORMATION:

Very toxic for fish.

General notes: Also poisonous for shish plankton in water bodies. Do not allow material to be released into the environment without proper governmental permits. Very toxic for aquatic organisms.

13. DISPOSAL CONSIDERATIONS

Consult local or national regulations for proper disposal.

14. TRANSPORT INFORMATION

(Mn:ZnSe is not a hazardous material for transportation)

ID Number: None

Hazard class: None

Packing Group: None

Labeling Requirements: None

Canadian Transportation of Dangerous Goods: None

Land Transport ADR/RID: None

Air Transport IATA/ICAO: None

Exceptions: None

15. REGULATIONS

Hazard symbols: T Toxic N Dangerous for the environment

Risk phrases: (23/25) Toxic by inhalation and if swallowed. (33) Danger of cumulative effects. (50/53) Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Safety phrases: (20/21) When using do not eat, drink, or smoke. (28) After contact with skin, wash immediately with plenty of soap and water. (45) In case of accident or if you feel unwell, seek medical advice immediately. (60) This material and its container must be disposed of as hazardous waste. (61) Avoid release into the environment. Refer to special instructions/safety data sheets.
